

## OUR BEERS

### BRICK & BEAM IPA

First brewed for the colonial British in India, oak casks of IPA survived in the holds of ships sailing through the Indian Ocean. Since hops and alcohol help to preserve beer, it had lots of both. Although it isn't aged in oak, ours has a powerful hop character.

### DOWNTOWN BROWN

This real North Country brown ale is all about malt flavours using hops only as a balance to the smooth roast nut character.

### MAINLAND LAGER

A light straw colored lager brewed with Canadian prairie malt and hops imported from Germany and the Czech Republic. This is an exceptionally refreshing and quaffable beer.

### HILLS SPECIAL WHEAT

In Bavaria this style of beer is called Hefeweizen. Brewed with a unique yeast culture it is cloudy with refreshing spicy and fruity character.

### HELMCKEN BLACK & TAN

We have combined the smooth chocolaty character of our Stout with the fine hop flavour of our Pale Ale. The result is a careful marriage of flavours and aromas in this classic pub style favorite.

### WAREHOUSE STOUT

This rich, round and smooth ale has flavours of roast coffee, chocolate and smoke. It is brewed with oats to create a silky smooth texture and a firm body.

### NAGILA PALE ALE

One of the most brewed styles in the world, Pale Ale usually reflects the place where it is made. With Pacific Northwest hops, Canadian prairie barley, and a traditional English ale yeast, ours is balanced with a depth of malt character and refreshing citrusy hop flavour.

### CASK NIGHT

At 4:00 pm every Thursday, our brewer, Iain Hill, taps a special cask on the bar to be enjoyed by our guests. Each week is a different style of fresh beer brewed in a small batch. Get here early.
